RETRIEVABLE SEAL BORE PACKER - SINGLE BORE

The **Retrievable Seal Bore (RSB) Packer** delivers high performance with simplicity of design and desirable economics. This packer is rated for 7,000 PSI and can be equipped to withstand severe corrosion and high temperatures. The RSB Packer is set on wireline (with minor changes) or on tubing with a hydraulic setting tool and is retrieved using a retrieving tool.

NOTE: A retrieving tool is required to retrieve these packers and must be purchased separately.

Features:

- Simple operation
- Economical
- Easy to retrieve
- Many applications
- Easily modified for a wide range of conditions and temperatures

Casing		Recommended Hole Size IN	Tool OD IN	Packer Bore IN	Upper Seal Bore IN
Size IN	Weight LBS/FT
